

## Presenter Guidelines

### How to Make Video Presentation at ICMS<sub>2020</sub>: A Tutorial

1. Presenters have to make a video presentation. They have to give a label of *scope* in the right corner of the PowerPoint slide, i.e ***Mathematics Education***. The video presentation should follow these rules:

Information				
Duration	Features	Video Format	Size	Max. Slide
5 – 10 minutes	Power Point Presentation and the voice of presenter with/without show of face.	.mp4	Less than 40 MB	8

2. Please include the following items in your PPT as follows: *Title, Background, Method, Results and Discussion, and Conclusion*.
3. Presenters can use various *software* freely to make their videos of the presentation. The committee provides an example of the recording process by using **ZOOM SOFTWARE**. Presenters can see this tutorial of video making by using **ZOOM SOFTWARE**.
4. Tutorial of video recording by using zoom meeting application:
  - a. Make sure that you have a zoom application on your laptop or computer. You can download it from <https://zoom.us/download>.
  - b. Log to your Zoom Account.
  - c. Click Setting (*gear icon*).

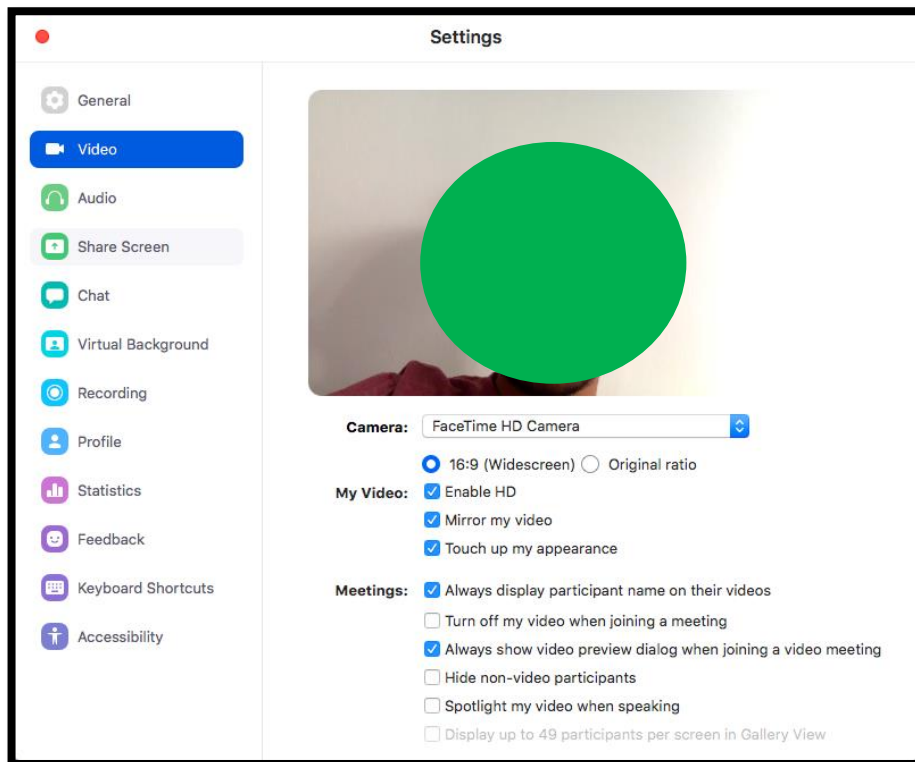

- d. Click the Video and make sure your camera is working. To check your camera on your computer, please **check** the click button on your camera setting.

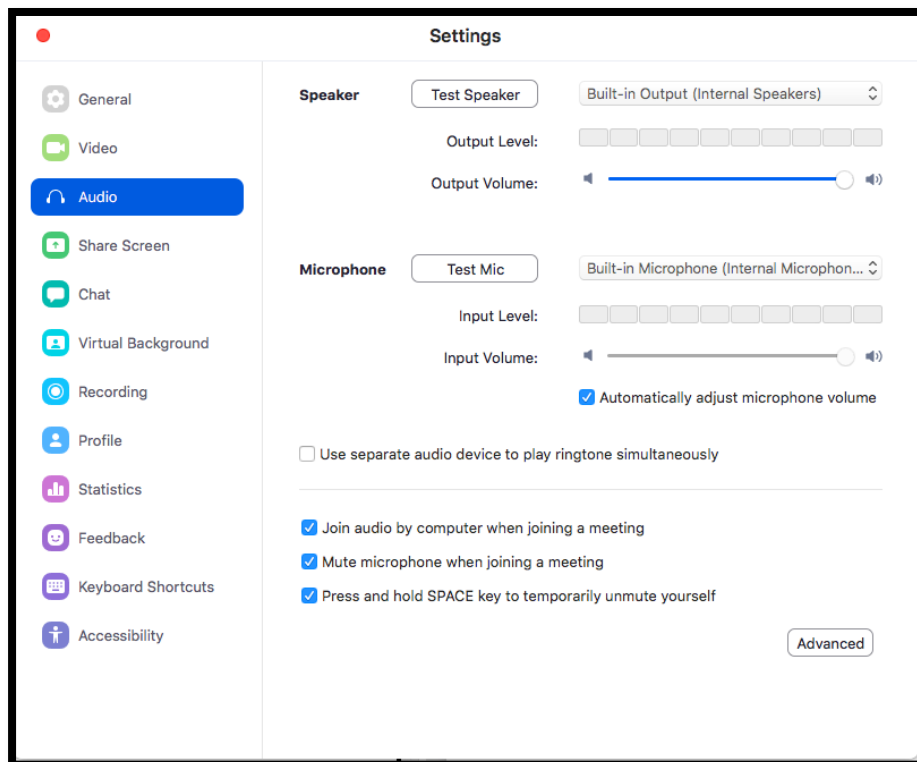

# INTERNATIONAL CONFERENCE ON MATHEMATICS AND SCIENCE EDUCATION

THEME: "STEM AND ESD FOR PROMOTING SMART AND SUSTAINABLE SOCIETY"

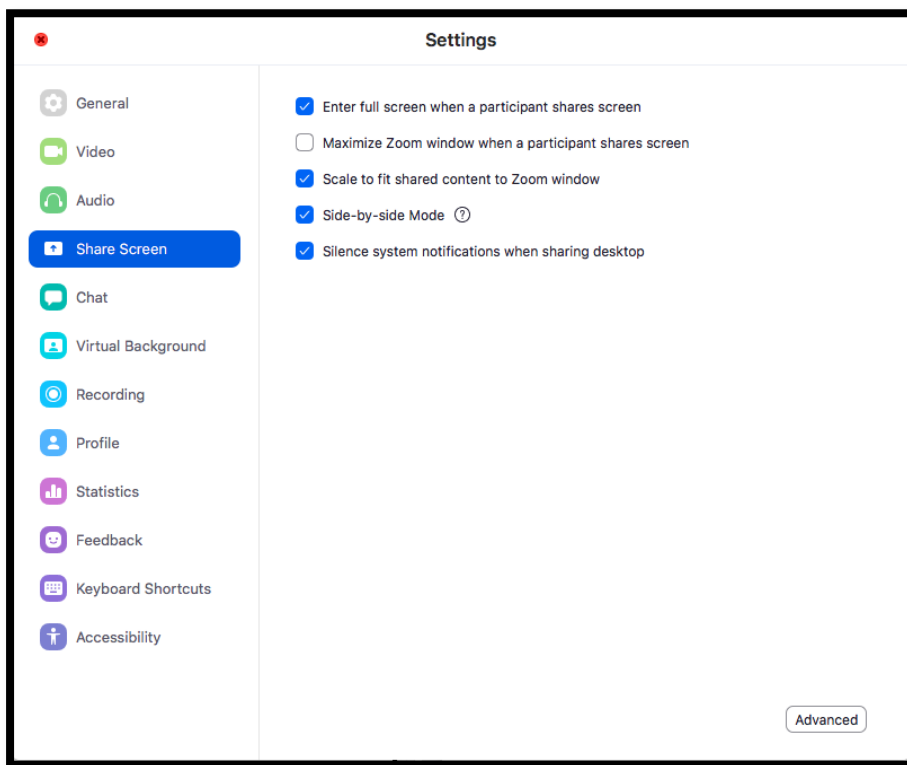

- e. Click audio, ensure your Audio is working. To check the audio, click the Test Mic.
